"The NEDP changed my life. Since I started the program, I have learned new things – how to deal with and find the solution to a problem in a different way. I am proudly a single mother of 3 children, and I have acquired many skills, but the NEDP helped me to develop new skills that will help me in life and to continue my education. Now I am ready to go for my next step. Thank you for changing my life."

"I am so happy to finally walk down the graduation line. I am finally eligible for college and my dream is to become an RN. Thank you again, this was a life-changing opportunity!"

"I thoroughly enjoyed this program and I feel like I have a chance at a life now. My possibilities have opened up and I am honestly a bit overwhelmed at the opportunities. I am endlessly grateful and proud to be a part of this program and feel as if I can overcome a multitude of other things in life since I have gone through this program."
