Description of Features	Basic Access	Enhanced Access
Web and Network Advantages — System Architecture		
Deployment as Web-based	●	●
Enterprise database for agency-wide implementation	●	●
Engaging user interface	●	●
Web-based reporting, e.g., online student portfolio		●
Data recorded and accessible in real-time	●	●
Data hosted on a secure server	●	●
Administrative Advantages — Local, Regional, and State		
Standard data exchange* functions: demographics, attendance, class, E/U records		●
Automated data entry: shared database for assessment and DBM	●	●
Individual student raw score entry		●
Collects and aggregates student-level data	●	●
Rolls up data to local, regional, and state level		●
Generates all NRS tables (CASAS and other test scores, e.g., BESTplus, TABE)		●
Tracks learners in multiple programs	●	●
Tracks registered students	●	●
Wide variety of customized reports available in color with charts and graphs		●
Ad hoc reporting tool with custom filtering		●
Comprehensive filtering in data grids		●
Agency-managed access rights (list, view, create, update, delete)		●
Family Education Rights & Privacy Act (FERPA) compliance	●	●
Health Insurance Portability & Accountability Act (HIPAA) compliance	●	●
Classroom Advantages — Tests and Reports		
Scores CASAS assessments (choose from most popular test series)	●	●
Provides student-level reports	●	●
Provides classroom, site, agency, state, and federal reports		●
Provides flexible access rights according to agency-defined groups		●
Records instructional hours (optional)		●

*Contact CASAS to discuss custom data exchange requirements and cost.

CASAS eTests Online: Basic Reports

Included with purchase of online test administrations (Web-test units/WTUs), CASAS eTests Online provides eight basic reports generated through TOPSpro Enterprise Online:

1. Individual Skills Profile - John Morris
   (For GED programs) presents competencies assessed in various modalities and indicates likelihood of passing different GED subsections.
   Individual Skills Profile - Maria Gonzalez
   (For ESL programs) presents competencies assessed in reading and listening.

2. Student Competency Performance - Reading
   Student Competency Performance - Math
   Shows test results of an individual test-taker on a given test form by displaying the competency number and statement for each test item and indicating whether the test-taker correctly answered the item.

3. Personal Score Report (PSR)
   Shows test results summary and scale score descriptor of an individual test-taker on a given test form; optional on-screen display at the end of a test with print option. Print or reprint individually or filtered group from TE Online.

4. Student Test Summary
   Lists, by agency or site, every test-taker who has taken a test and displays the test history for each test-taker – including CASAS test form, test date, scale score, hours of instruction, and scores outside the accuracy range.

5. Test Results
   Lists test records for a specified date range – including CASAS test form, test date, and scale score.

6. Next-Assigned Test (NAT)
   Lists students with their last CASAS test form, scale score, and test date. Based on the previous test result, this report displays, by modality, the next-assigned test (NAT) form and level for the specified date range.

7. eTests Administrations
   Lists information about number of tests administered per month for each program year.

8. WTU Gauge
   Dashboard indicator of test administrations available for use with agency-defined "low" threshold (coming soon).
