

Individual Skills Profile

The **Individual Skills Profile** provides a comprehensive student level view of an individual's assessment and instructional progress. The report summarizes the student's recent test performance, and relates this to life skills related competencies as well as to College and Career Readiness Standards (CCRS).

**Individual Skills Profile**

Agency: 4908 - Rolling Hills Adult ..
Program: Basic Skills (ABE)

Most Recent	Form	Date	Scale Score	NRS Level	Form Level	Number of Items			Grade Equiv.
						Total	Correct	Attempted	
Math	036M	05/17/2021	213	3	C	35	10	35	4.5
Reading	907R	03/06/2021	239	5	D	40	20	40	9.1

In TE, access the Individual Skills Profile by going to **Reports – Test Results – Skills Profile – Individual Skills Profile**.

This opens the Individual Skills Profile report setup window. There are several customization options at the bottom of the setup window:

Report Style Option:

☐ B&W ☒ Blue ☐ Green ☐ Red

Show NRS Educational Functioning Levels Legend: ☒

Page Orientation:

☒ Portrait ☐ Landscape

Content Standards:

☒ CCRS ☐ CASAS Standards

Show Grade Level Equivalent: ☐

 **Special Options**

Show only students with competency analysis: ☐

Show only students with content standard analysis: ☐

Show only students with task analysis: ☐

Show only students with GED Predictor: ☐

Show only students with HiSET Predictor: ☐

Exclude Retested: ☒

Predictor:

☒ GED and HiSET ☐ GED only ☐ HiSET only ☐ None

Show NRS Education Functioning Levels Legend: Check this box to display the 12 NRS EFLs.

Content Standards: Select to display either the new content standards related to College and Career Readiness Standards (CCRS), used in CASAS GOALS (2016), or the previous CASAS content standards (2009) used in older CASAS test forms.

Show Grade Level Equivalent: Check this box to display an approximate grade level (roughly) relates to that student's reported NRS EFL.

Special Options

Show only students with competency analysis: Check this box to limit the report to only students with information related to CASAS competencies.

Show only students with content standard analysis: Check this box to limit the report to only students with information related to content standards (either CCRS or the original CASAS standards.)

Show only students with task area analysis: Check this box to limit the report to only students with information related to task area.

Show only students with GED Predictor: Check this box to limit the report to only students that display the GED Predictor on the report.

Show only students with HiSET Predictor: Check this box to limit the report to only students that display the HiSET Predictor on the report.

Predictor: Select whether to display HSE Predictor information for the GED, HiSET, or both.

Once you generate the report, the top section displays the student's most recent test result for each test modality, with the **Form** number, **test date**, and **CASAS scale score**.

Most Recent	Form	Date	Scale Score	NRS Level	Form Level	Number of Items			Grade Equiv.
						Total	Correct	Attempted	
Math	036M	05/17/2021	213	3	C	35	10	35	4.5
Reading	907R	03/06/2021	239	5	D	40	20	40	9.1

NRS Level relates the scale score to the appropriate NRS Educational Functioning Level (EFL).

Form Level refers to the level (A-D) of the CASAS assessment form.

Number of Items shows the **Total** number of test items on the test form, and the number of items the student answered **correctly** along with the number of those the student **attempted**.

Grade Equiv. relates each scale score and federal EFL placement to an estimated grade level equivalent, which you can either hide or display from the report setup window.

The middle section of the report includes more detailed information from the student's assessment and relates this to CASAS competencies, CCRS, content standards, and task area. Competency information appears to the left, and either content standards or CCRS to the right.

To the left, the report lists CASAS competency categories relevant to the student's assessments, and lists test results by competency category for each modality the student completed.

Reading Competencies	N	Correct
Consumer Economics	17	58 %
Community resources	30	46 %
Health	20	65 %
Employment	67	49 %
Government and law	16	43 %
Learning to learn	22	27 %
Listening Competencies	N	Correct
Government and law	6	0 %
Consumer Economics	24	54 %
Community resources	27	51 %
Basic Communication	20	50 %
Employment	52	59 %
Health	35	31 %

Total **N** represents the total number of test items attempted that relate to the competency category. For example, if a test item relates to CASAS competency 2.2.2, follows directions on transportation signals and signs, then the student's performance on that item will be included in the N for competency area 2, community resources. The N = 30 under reading competencies for community resources means this student completed a total of 30 test items that relate to this category (in this example all competencies that appear as 2.x.x).

Correct represents the percentage of items overall in that competency area the student answered correctly.

The right hand side of this report displays information related to the “academic” related skills included in each CASAS assessment. The report displays either the standards that relate to College and Career Readiness Standards (CCRS) from 2016, or to previous CASAS Content Standards from 2009.

The display below is what appears if you select CASAS Content Standards:

Reading Content Standards	N	Correct
Vocabulary	32	50 %
General reading comprehension	104	48 %
Text in format	9	66 %
Reference materials	9	44 %
Reading strategies	21	66 %
Reading and thinking skills	20	40 %
Listening Content Standards	N	Correct
General Discourse	15	53 %
Vocabulary	56	42 %
Informational Discourse	23	52 %
Strategies and Critical Thinking	55	50 %
Grammar	36	61 %
Phonology	11	27 %

The report lists content standard areas for each test modality the student completed.

Total **N** represents the total number of test items attempted in the listed content standard category.

For example, if a test item relates to CASAS reading content standard R2.5, Interpret contractions, then that item will be included in the N for reading content standard category 2, Vocabulary. The N = 32 under reading content standards means this student completed a total of 32 reading test items that relate to this content standard category—in this example, all items that relate to reading content standard R 2.x.

Correct represents the percentage of items overall in that content standard category that the student answered correctly.

Here is the content standards view when you select CCRS:

College & Career Readiness Standards Reading Content Areas	CCR Reading Anchor Standards	N	Correct
Vocabulary			
Academic	R4	4	25 %
Meaning from context	R4	4	75 %
Reading Comprehension Skills			
Locate details	R1	7	42 %
Identify main idea, Author's purpose	R2, R6	3	66 %
Higher Order Reading Skills			
Locate/Compare details, Infer/Draw conclusions	R1, R9	11	63 %
Text structure	R5	3	0 %
Author's point of view	R6	4	25 %
Analyze claim	R8	4	75 %

College & Career Readiness Standards Math Content Areas	N	Correct
Base Ten	9	55 %
Number and Operations: Base Ten Number System		
Fractions and Ratios	4	25 %
Number and Operations: Fractions Number System Ratios and Proportional Relationships		
Algebra	4	50 %
Operations and Algebraic Thinking Expressions and Equations		
Geometry	5	80 %
Geometry		
Measurement	9	33 %
Measurement and Data		
Data Analysis	9	88 %
Measurement and Data		

This table displays the student results by CCRS content area, for either reading, math, or both. The CCRS content areas and assessment modalities listed are the ones that relate to the specific tests and test items the student completed.

Total **N** represents the total number of test items attempted that relate to the listed CCRS content area. For example, the student in the example above attempted 7 items that relate to Locate Details.

Correct represents the percentage of items attempted that the student answered correctly.

The Individual Skills Profile also includes task areas for each test modality the student completed.

Reading Tasks	N	Correct	Listening Tasks	N	Correct
Forms	2	0 %	Comprehension question	16	75 %
Charts, maps, consumer billings, matrices, graphs, ta...	14	57 %	Predict next line of dialogue	24	62 %
Articles, paragraphs, sentences, directions, manuals	47	51 %	Identify true statement based on prompt	22	9 %
Signs, price tags, advertisements, product labels	1	100 %			

Total N includes all of the test items that relate to the listed task area.

Correct represents the percentage of items overall in that task area that the student answered correctly.

At the bottom of the report, for certain students, the report will display information about the student’s likelihood of passing the HiSET or GED. The report projects how a student’s scale score result relates that to the student’s likelihood of passing the GED (or HiSET). To determine which students profiles include this additional information, TE uses a combination of the test form level and scale score achieved. General guidelines for this TE logic appears below.

CASAS Math GOALS: Report displays students that complete a C or D level form and score ***between 218 and 250***.

CASAS Reading GOALS: Displays students that complete a C or D level form and a scale score ***between 210 and 263***.

At the bottom of the report is a table showing the six NRS levels (for either ABE/ASE or ESL, depending on the listed student’s instructional program.) This is an optional feature, for reference in order to correctly identify the NRS Level that appears at the top of the report.

NRS Educational Functioning Levels		CASAS Score Ranges	
EFL	ESL	R,M,L	Writing
1	Beginning ESL Literacy	<=180	
2	Low Beginning ESL	181-190	<=145
3	High Beginning ESL	191-200	146-200
4	Low Intermediate ESL	201-210	201-225
5	High Intermediate ESL	211-220	226-242
6	Advanced ESL	221-235	243-260
