Name_____

Make Strong Passwords!@#$%^&*()+

1. Use "8" alphabet letters, numbers and special character(s).

2. Use some "small" alphabet letters (abcdefg….).

3. Use some "CAPITAL" alphabet letters (ABCDEFG….).

4. Use some "numbers" (1234567890).

5. Use one "special character" such as: ! @ # $ % ^ & * ( ) +

   Practice **in pencil** making a password below.

   Use a combination of 1 through 5 above:

   _____ _____ _____ _____ _____ _____ _____ _____
    1   2   3   4   5   6   7   8

   IMPORTANT NOTES:
   1. Don't put spaces between the characters.

   2.   Capital letters = Hold down "Shift" key + letter

   3. Special Characters = Hold down "Shift" key + number

   4. Do not press "Caps Lock" key or everything you write will be CAPITALS (ABCDEFG…) and special characters (!@#$%^&*+).

   5. Keep your password in a safe, secret place.
