## Comprehensive Adult Student Assessment Systems

# Math Final Forms Field Testing

## Study Participation Guidelines 2022

### Purpose

To examine the performance and validity of the test forms at each test level of the new CASAS Math GOALS test series.

### Eligible Participants

- ABE / ASE students at all levels
- ESL students at NRS Level 4 in Reading

### Methodology

- Following all standard test administration protocols:
  - Students are administered the new CASAS Math GOALS locator with CASAS eTests.
  - Students are administered the new CASAS Math GOALS appraisal with paper testing.
- Students will then take the appropriate level test based on the locator / appraisal results.
- Each student may also be administered a second level test.
  - Giving both tests on the same day is permitted. CASAS recommends a short break in between level tests.
  - The second level test must be given within one week of the first test.
  - As with the first testing event, the second test is administered following all standard test administration protocols.
  - With CASAS eTests the second level test may or may not be at the same level as the first.

### Technology Requirement (For eTests)

- Agencies must have computers, laptops or Chromebooks.
- The field tests may be administered in-person or remotely.

### Time Commitment

- Students should be allowed 15 minutes for the locator and up to 75 minutes for each level test to ensure they have adequate time to complete the tests.
- When paper testing, students should be given 45 minutes to complete the appraisal.

### With Gratitude

In appreciation of your time and effort participating in this study, CASAS will compensate your students and agency as follows:

- \$20 gift card to each student for each field test completed.
- Non-California funded participating agencies will receive 100 complimentary online test units (WTUs or TEUs).

### Contact us

To participate, please contact Karen Burger ([fieldtesting@casas.org](mailto:fieldtesting@casas.org) / 1-800-255-1036, ext. 177).
