Co-Enrollment

- The U.S. Department of Labor commenced a national workgroup in order to collaborate on getting a better understanding of co-enrollment strategies. California participated in the workgroup and committed to creating co-enrollment guidance in order to align service delivery with the concepts and visions found in the Workforce Innovation and Opportunity Act (WIOA).
- This Directive provides the guidance and establishes the procedures regarding California's strategic co-enrollment.

TONY THURMOND
State Superintendent
of Public Instruction

Co-Enrollment (2)

Strategic co-enrollment: enrollment in more than one WIOA Unified Plan Partner program, (California Workforce Partners).

- Sharing case management,
- leveraging resources,
- eliminating duplication of services, and
- improving participant experiences and outcomes

are all made possible through the strong partnerships that characterize strategic co-enrollment.

TONY THURMOND
State Superintendent
of Public Instruction

Co-Enrollment (3)

It is intended to be participant centered and provides all necessary services to achieve positive incomes. Coordination should prevent duplication or the supplanting of services.

Co-enrollment can streamline the provision of intensive services such as case management, job search assistance, and follow-up services.

Census 2020

California Adult Education Programs Prepare for Census 2020

Ensure that Californians get their fair share of federal resources and representation by encouraging the full participation of all Californians in Census 2020 – by counting everyone once and in the right place.

Why the Census Matters

Census is used to determine the number of seats a state holds in the U.S. House of Representatives.

FY 18-19 Federal funding of Adult Education in California is at \$395 million dollars. By providing accurate census information to the federal government, California's students will benefit – especially those participating in the many adult education programs.

Census data is used in developing adult education programs.

Challenges:

- First Digital Census Online 
- Limited Language Access 
- Data Privacy Concerns

Actions You Can Take

Spread the Word! The Census is Coming!

- Census information is **CONFIDENTIAL** and protected under Title 13 of the U.S. Code. The U.S. Census cannot release any identifiable information about individuals, households, or business, even to law enforcement agencies.
- The U.S. Census will **NEVER** ask for your social security number, credit card numbers, payment to complete the census form, or any donations on behalf of a political party.
- EVERY** person in California counts!
- March 1-20, 2020 the U.S. Census will mail information on how to complete the form online. You can also complete form via phone or mail.
