

National External Diploma Program® (NEDP)

Offer an Outstanding High School Diploma Program and Begin Changing Lives!

Every adult school educator knows that adults cannot always attend regularly scheduled classes. *How then do we help them earn a high school diploma?*

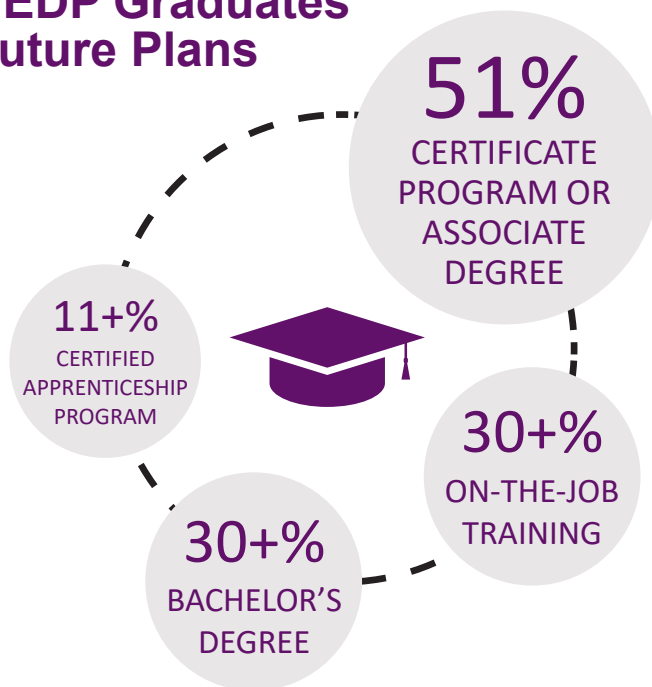

With NEDP, you can offer a flexible high school diploma program in your community that fits everyone's schedule.

NEDP is a web-based applied performance system that allows people to complete their studies at their convenience. *They come to you only for assessment and periodic check-in visits.*

Through NEDP, you can help the adults in your community obtain a high school diploma and acquire academic, critical thinking, digital literacy, and related skills. Performance tasks are cross-walked to College and Career Readiness Standards.

NEDP Graduates' Future Plans

In 2016, 1,094 NEDP graduates completed an extensive follow-up survey. Here is what the survey revealed.

- of **NEDP graduates** have met one or more goals:
- **employed**
 - **attending college**
 - **in a training program**
