

The California Adult Education Digital Learning Guidance (DLG)

The **2026 DLG** offers updated **strategies**, **examples**, and **frameworks** for digital teaching and learning.

Research-Backed

Built on current literature, stakeholder input, and field review.

Relevant and Practical

Concrete examples for teachers, administrators, navigators, and support staff across distance, hybrid, and in-person programs.

Accessibility and UDL in Practice

Clear guidance for Universal Design for Learning, WCAG alignment, and inclusive course design.

New Chapter on Artificial Intelligence

Use cases, instructional implications, tools overview, and responsible integration.

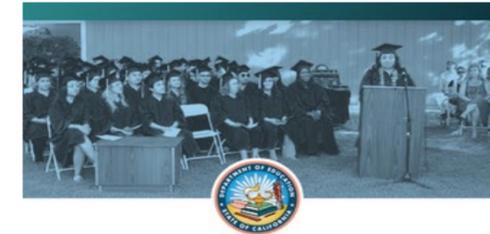

Emerging Technologies

Strategies for VR, career navigation platforms, skills-based technologies, and related tools.

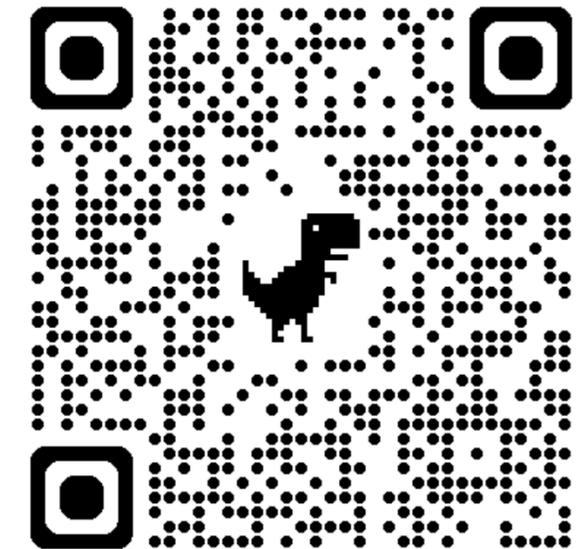

Tools for Implementation (Coming in Spring 2026)

Updated Educator Course, Facilitator Guide, and aligned professional development resources.

California Adult Education
Digital Learning Guidance

Developed in 2022, updated in 2025

Explore today!

Using Technology to Design Effective Adult Learning

Explore how to **build** and **facilitate** effective **digital learning** experiences for adult students and staff.

A **10-week professional learning cohort** for **adult education staff** focused on applying Digital Learning Guidance concepts to improve **instruction, workflows,** and **program resources**. Participants select a digital learning project from their own work and use the course to build, test, and improve it over time.
