TE UPDATES

Carlos Rodriguez

TOPSpro Enterprise

- TE:
 - Version: 4.1.36
 - Issue for site users using the scanning wizard with the "Load Existing Data" feature.
- eTests Online
 - Multiple improvements to accessibility options.
 - Volume Control for Listening Tests
 - Ability to hear test directions many times

CASAS eTests Mobile Applications

- Version: 1.5
- DEVICE Authentication
- The DEVICE PROMPTS for a session registration code on first use and auto-connects to the assigned session.
- The DEVICE will reconnect to the same session each time the app opens.
- To change sessions, the proctor must manually reassign the DEVICE; a new code cannot be entered in the app.
- The proctor can unregister the DEVICE from the Testing Stations menu, requiring a new code on the next app launch.
