The writer distinguishes between leasing and buying by emphasizing the _____.

- A. affordability of leasing a car
- B. high cost of purchasing a car
- C. similarities of both options
- D. **pros and cons of the options**

Lease vs Buy

Read This Before Leasing or Buying a Car!

1 Choosing between leasing or buying a car is one task in life that many
 2 individuals face. Some experts believe buying is the preferred choice because
 3 consumers have the freedom to sell the car at any time and are able to determine
 4 the asking price for themselves. Others respond that leasing is the better
 5 option because consumers often can select newer makes and models that may
 6 not be within their reach when purchasing a car. More importantly, leasing
 7 means lower monthly payments. Those who favor buying are quick to point
 8 out that the payments never end with leasing, and after the endless payments,
 9 consumers have nothing to call their own.

Which sentence would make the *best* conclusion to this article?

- A. Leasing the newest model beats owning an older one.
- B. **The decision depends on each person's situation.**
- C. It is obvious that leasing involves too many costs.
- D. Most experts see little difference between leasing and buying.

In line 6, what phrase can *best* replace within their reach?

- A. their ability to select
- B. **in their price range**
- C. for their needs
- D. of their liking
