## Steps to Install TOPSpro Enterprise

For Windows 10 Machines

Accessing TOPSpro Enterprise (TE) Online requires installation of the TE Client to validate credentials and connect with your online account through a secure HTTPS connection.

Server	Use any modern web browser
Global	https://etestsonline.org/html5/#/
California	https://ca.etestsonline.org/html5/#/
LARAEC	https://laraec.etestsonline.org/html5/#/
Miami Dade	https://etestsonline.org/MiamiDade/html5/#/
Washington	https://etestsonline.org/Washington/html5/#/

Step	Screen	Description
1.		• Open any modern web browser and enter the server URL (above) for the CASAS Online System your program uses. • At top left of the webpage, ○ Click **Install TE Client**
2.		• The **TE Client** will open automatically when installation is complete.

Review TOPSpro Enterprise System Requirements at Home > Product Overviews > Software > TOPSpro Enterprise > System Requirements
