

Steps to Set Up eTests Online App on Chromebooks

Set-up eTests Online App

1. **Sign In** to Chromebook's [owner](#) account.
 - a. Note: This is the first account created on a Chromebook – the first user to log in after purchase (or after performing a “Powerwash” factory reset).
 - i. This essentially becomes the administrator account with full privileges on the device.
 - b. If you administer Chromebooks centrally using Google's [Chromebook Management Console](#), you may use that instead to deploy the eTests app in kiosk mode.
 - i. The App ID you will need is the last portion of the app's unique Web Store URL: bjeecpigckhpdhjdkmabmlojdbefaad
 - ii. The app is published on the Chrome Web Store but it is not public, so you cannot search for it. You will need to copy the URL and App ID.
2. Go to this Chrome Web Store page:
<https://chrome.google.com/webstore/detail/etests-online/bjeecpigckhpdhjdkmabmlojdbefaad>
3. Click the **Add to Chrome** button and then click **Add app**.
4. Click **Launch App**.
5. **Click** the <chrome://extensions> link to copy it to the clipboard.
6. Click the **Chrome** icon at bottom of screen to reopen Chrome.
7. **Paste** the link into the address bar.
8. Press **Enter**.
9. The **Extensions** page will open. Click to enable the **Developer mode** toggle switch.
10. Click **Manage kiosk applications**.
 - a. If this button does not appear, you are not logged in as the owner. See step 1.

11. Click the **eT** icon at bottom of screen to reopen the **eTests** app.
12. Click the **application identifier** (#3) link to **copy** it to the clipboard.
13. Click the **Chrome** icon at bottom of screen to reopen Chrome.
14. **Paste** the application ID in the **Add kiosk application** field.
15. Click the **Add** button.
 - a. The **eT eTests Online** app will now display in the **Manage Kiosk Applications** pop-up window.
16. Click **Done**.
17. Click the Chromebook **status area** at bottom right corner (where your account picture appears) and then click **Sign out**.
18. In the bottom left corner of the sign-in screen (next to Shut down), click on **Apps**.
19. Click **eT eTests Online** in the kiosk apps pop-up menu.
20. Select the appropriate **Server** for your region.
 - a. If no server appears to be applicable, choose "Global."
21. Enter **Login** credentials and follow [Steps to Register Stations](#).
