

# Written Prompt Online Training

---

## Suggestions for Review

Please try the following before attempting another certification activity:

- **Review Scoring Activities 1 and 2.**
  - Did you generally score high or low? If so, take this into consideration.
  - Which score points did you score incorrectly?
    - Review the rubric descriptors for those score points.
  - Review the Scoring Activity annotations provided.
- **Review the anchors again.** What do you notice is the main difference between one score point and the next? For example, what do all 2s have in common?
- **Review the tutorial video** [“CASAS Written Prompt Diagnostic; what is the difference between a score point 2 and 3?”](#)
- **Try Scoring Activity #3.** Use your Participant Scoring Sheet to document your scoring rationale and provide examples to confirm your score. Use your anchors before making a final decision on score.
- **Pose specific questions** in the “Ask the Facilitator” forum.
- **Set up a time to meet with the Course Facilitator.** Be prepared to go over Practice Activity samples. Identify some questions ahead of time in relation to some of the Practice Activity examples.

After you have completed a thorough review, you may attempt another Certification Activity.
