CASAS Online Self-Paced Courses are delivered using

The online self-paced courses developed by CASAS are made possible through the course management delivery system called Moodle. Moodle is an e-learning software platform designed to provide a virtual learning environment.

These online self-paced courses are open entry/open exit; therefore, participants may join a course anytime and complete the course at their own pace. Each course provides a Certificate of Completion, Training Verification and Training Evaluation. Training required by CASAS includes a Certification activity.

If this is your first Moodle course, we recommend that you prepare for online training by accessing or printing (optional) the "Moodle How-To Guide for Online Training." Reading through this document will make your online training experience much more enjoyable.

General Course Description

CASAS – Initial Implementation Training Course

Course Introduction

CASAS requires that each person involved in CASAS testing complete Initial Implementation Training. Training is necessary to maintain the integrity and quality of the assessment process.

This course provides the foundational framework from which the CASAS System is built. Agency staff must complete this training course prior to ordering and administering most CASAS tests. Training participants learn how to administer CASAS tests for placement and documenting progress, interpret test results, and use curriculum support materials to enhance instruction.

You will become familiar with a variety of procedures and terms throughout this training.

After completing this training, you will have a basic understanding of:

- The CASAS system
- CASAS Testing
- CASAS Reports
- How to determine class and student needs based on CASAS testing and reports

Course Overview

This training consists of nine units with built-in activities and review questions at the end of each unit, a needs-assessment, and a certification activity.

Each unit is divided into topic areas that serve as the foundation for each unit. A participant is certified to order and administer CASAS appraisals and pre- and post-tests at their agency upon successful completion of this course.

This training will take approximately three hours to complete.

Training Goals

Participants who complete this training are certified to order and administer CASAS appraisals and pre- and post-tests at their agency.

Training Objectives

Participants will identify the link between curriculum, instruction and assessment. They will identify CASAS competencies, task areas and content standards. They will identify and select CASAS tests and learn how to interpret and use test results to inform instruction. Participants also will learn how to access QuickSearch® Online for instructional resources.

To complete this course successfully requires:

- 100% score on Certification activity
- Submit Training Verification
- Generation of the Certificate of Completion
