Job Corps Implementation

This document provides implementation options and examples of how a Job Corps Center may implement [CASAS eTests](#) and [TOPSpro Enterprise (TE) Online](#). For paper-based test implementation, please refer to the [CASAS Catalog](#) for pricing.

Implementation Options			
Option	CASAS eTests	**TOPSpro Enterprise (TE) Online** (test scoring & reporting system)	
		TE Basic $0	TE Enhanced $1,995 license (2nd yr - $360 annual renewal/site)
1	Online	Online	
2			Online
3	Desktop Installation (LAN, WAN, or standalone computer) $195/initial, $45/additional installation	Online	
4			Online

Quantity	Test Units
100 - 500	$2.75
501 - 1000	$2.20
1001 - 5000	$2.00
5001+	$1.75

Implementation Examples

Option 1 – 600* test units x $2.20 = $1,320

Option 2 – 600* test units x $2.20 + $1,995 TE license = $3,315

*100 students x 6 tests (*one pre- and one post-test for reading, listening, and math*)

CASAS eTests gives you the ability to combine a Locator and pretest in one sitting. Locators replace the Appraisal and are administered at no cost (or test unit). Locators quickly determine an appropriate-level pretest that is administered immediately following.

TOPSpro Enterprise (TE) eases data collection and provides opportunities to analyze and interpret data and identify specific solutions to improve performance outcomes. Use TE for automated test scoring, learner management, accountability, and reporting. The [Assessment and Database Management Features](#) document describes the differences between TE Basic and TE Enhanced implementation.

Please contact Dawn Montgomery (dmontgomery@casas.org) to discuss implementation options.
