**Steps to Use Practice with eTests**

CASAS recommends using Practice with eTests Online to help introduce students to taking a web-based test before they begin testing. Practice gives students the opportunity to explore the testing interface, respond to test items, and navigate the screens. Students may repeat practice multiple times in the same sitting. Practice items are not subject to test security and teachers may use them with classroom instruction. Using a Practice only session eliminates the risk of students launching a progress test (pre or post). Practice is not for measuring basic skills. There is no cost for using Practice with eTests Online.

Sample Test Items are also available at CASAS Home > Product Overviews > Curriculum Management & Instruction > Sample Test Items

| 12.  | ![Any Questions](image) | **Cont. Script:**  
  You are now ready to begin testing. You should be able to finish each test in about one hour, but do not spend more than two or three minutes on one question. If you finish early, you may **Review** your answers.  
  If you do not know the answer, that is OK, you do not have to enter an answer. Just go to the next test item. Do your own test; do not get help from others. No calculators, dictionaries, books or notes.  
  When you are finished, or if you cannot answer any more test items, raise your hand and your proctor will assist you.
