A Quick Review of Student Data Security

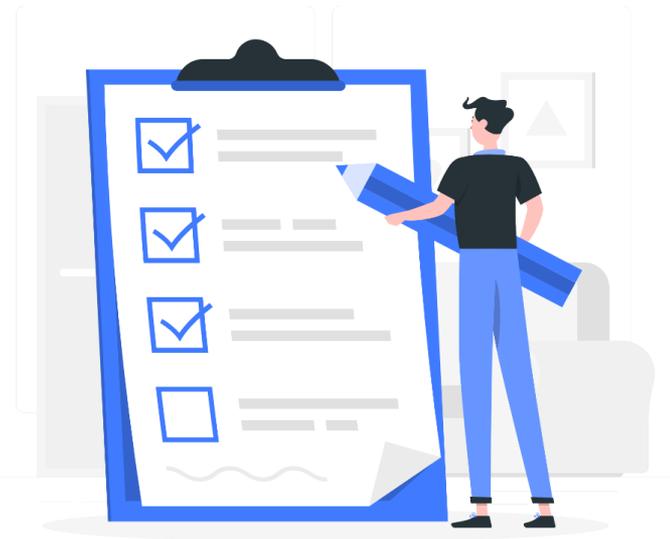

Janice Fera,
National Program and Technology Specialist

Why talk about “Data Security”?

- We all have a responsibility to our students to keep their data safe.
- Identity theft is a major interruption for individuals and families.
- The safety of students involved in social programs or domestic protection deserve our care as well.
- Internet trolls are always phishing... so here are a few reminders on best practices for supporting student data security.

Will you share YOUR feedback with us?

- Zoom Poll:
 - Does your school district or state education agency have a policy about **passwords** (i.e. password length, frequency of change, or sharing userids)?
